

Matthews Proseco Collection

Matthews Paint Celebrates Colors in the Proseco Collection

Features and Benefits

- Creates a unique and distinct look
- Seven silver-based colors available
- Element of color travel has been incorporated altering the perceived color as the viewing angle changes
- Used in a variety of environments from classic to cool techno

“Brilliant! Simply wonderful and brilliant!” declares Heather Testa of Ten8 Group. “Matthews metallic Proseco Collection is a must spec for all future projects.”

As our library of color formulas exceeds 70,000, Matthews Paint presents silver-based colors for the most refined signage designs. To create attention-grabbing sign graphics, specify the Proseco Collection of colors. These seven silver-based colors benefit from the color travel effect, altering the perceived color as people approach. This distinct look fits in a variety of environments, from warm classic to cool techno.

The available colors include Gold Standard (MP50243), Brass Alloy (MP50244), Bronze Hint (MP50246), Silver Rose (MP50245), Polished Pewter (MP50274), Golden Glow (MP50248), and Blue Steel (MP50273).

The Proseco Collection

Gold Standard	Brass Alloy	Bronze Hint	Silver Rose	Polished Pewter	Golden Glow	Blue Steel
MP50243	MP50244	MP50246	MP50245	MP50274	MP50248	MP50273

**Colors depicted above should not be used as standards—request an actual color card for true representations.*
